

## TEAM LEADER AUTOMOTIVE COATINGS

[Apply Now](#)

Company: AGC Glass Europe

Location: Belgium

Category: other-general

### **What if your next job was about...**

#### **Your mission:**

You will be part of the Automotive Functional Solutions team – a small team developing future Automotive products (excluding AVO), mainly for the OEM market. The team relies on three pillars :

General project management competences

AGC “core business” technical knowledge (ex: naked glass, enamels, coatings, lamination,...)

Specific technical skills which evolve with market trends (ex: switchable technologies, solar PV technologies, lighting techniques, ,...)

#### **Responsibilities will include**

Team management (3-5 people)

Development of new PVD coating(s) on glass for automotive application

Project management

#### **Specific tasks will include :**

Manage a team of researchers (results follow-up, coaching, new projects generation,...)

Define new PVD coating(s) for automotive application

Validate those new PVD coating(s) (ex: durability)

Make those new PVD coating(s) industrial

Make those new PVD coating(s) profitable

Support promotion activities around those new PVD coating(s)

### **Are you the perfect match ?**

#### **Your talents :**

Engineering or PHD degree in one of the following fields: material science, mechanics, electricity, physics, chemistry

Knowledge of thin coating deposition by PVD

Able to elaborate, test, and propose new concepts autonomously

Able to structure and organize a project and a team

Efficient to communicate in multicultural environments (presentations, reports, discussions, negotiations) and popularize complex concepts/results

Multi tasker, able to meet deadlines and manage different projects

Strong logical mind – yet creative and entrepreneurial with an agile spirit

Hungry for learning and growth

#### **What do we offer**

#### **Why you should apply ?**

A complete package including a competitive salary, 40 days holiday, luncheon vouchers...

A policy of two days' homeworking a week

A complete training catalogue in the field of glass, personal and technical development as well as support during the first months of onboarding.

A stimulating work environment with innovative technologies, and a friendly, open-minded and talented team that respects autonomy while always listening to your ideas.

The opportunity to get involved in sustainable development: AGC is committed to the

environment and social transition through its staff's involvement in a number of initiatives.

### **Curious to know more about your future site ?**

You will be based at AGC's Technovation centre in Gosselies where research and development, engineering and intellectual property activities are centralised under one roof with about 300 staff members. With different nationalities, the atmosphere reflects our values of inclusion and diversity: we value the uniqueness of individuals and the different perspectives and talents they bring to AGC. Our teams have a great exposure to different aspects of glass business and new technologies. They are driven by collaboration, motivation, curiosity and respect for autonomy. This makes daily work enjoyable and life easier.
