Teamlead Solution Delivery Architecture

Apply Now

Company: Ypto

Location: Bruxelles

Category: computer-and-mathematical

You like being involved in the technology and business part of your product? Then becoming our Teamlead SPS Architecture might be your thing !

As Teamlead Architecture you will work within the Solution Delivery SPS department, which stands for Sales, Passenger & Security Information. This department is the IT partner of the NMBS-SNCB Directorates Sales & Marketing and Passengers Transport.

Part of the time you take up the role as teamlead, the other part of the time as a domain architect. As a team you shape the long-term architectural vision that allows the SNCB to realize their digital ambitions. Together with the SNCB and with other experts in strategy, product, design, architecture, and engineering, you will facilitate the architectural process for new value propositions, business models, digital platforms, or services. The ideal candidate will have experience in both Solution Architecture and Domain Architecture, and possess strong leadership and communication skills.

Your responsibilities are the following:

As teamlead:

Collaborate with the different business areas in order to plan team's focus.

Develop and maintain relationships with clients and stakeholders to ensure that their needs are being met

Provide guidance and support to team members to help them achieve their goals and professional development

Guide and mentor team members to ensure consistent delivery of high-quality solutions

As domain architect:

Planning, execution & delivery:Act as reliable partner towards NMBS-SNCB in building the strategic IT planning.Understand the bigger picture, shape the desired domain architecture and support the software delivery.Collaborate with project managers, business analysts, and other stakeholders to ensure that solutions align with business requirements and goals

Shape the desired architecture:Evaluate new technologies and methodologies to ensure that the team is up-to-date with industry trendsTake the lead in modeling the strategic and future-proof product & platform architectureSeamlessly bridge the business and technological perspectives.

Vereisten

Master's degree in Computer Science, Engineering or a related field

Minimum relevant working experience of 10 years within a IT/delivery environment of which at least 5 years as Architect and 3 years as Teamlead.

Demonstrated ability to design and deliver complex IT solutions

Proven ability to manage and lead a team of architects

You have strong skills in stakeholder management (technical and management profiles) and are an excellent communicator with a can-do mindset.

You have a technical background allowing you to manage the technology product

You have an excellent understanding of common software engineering practices (CI/CD, DevOps, Shift left, ...) and architecture modeling practices.

Innovation driven – pro-active look into the market on what technologies are available, what the competition is doing etc... Drawing on a whiteboard to facilitate a debate comes naturally to you

You are fluent in Dutch or French and have a proficient knowledge of English.

Our offer

Within our open business culture, you will work behind the scenes on the digital transformation of NMBS/SNCB. You have a job with social impact and room for personal

input. In addition to a good work-life balance and a competitive salary, your package includes: Possibility to work from home + flexible working hours

35 days of leave

Company car + public transport pass

Hospitalisation insurance (including dental care) for the whole family, group and invalidity insurance (cafeteria plan), without own contribution

Meal and eco cheques

Net allowances for remote work and carwash + internet budget

Internal and external courses
