

Technical Consultant (BE)

Apply Now

Company: Itineris

Location: Belgium

Category: computer-and-mathematical

Ghent, Belgium

There's a saying at Itineris: together goes a long way. And we live by that. Whether your job is translating our customers' needs into the best software, selling, coding software, or keeping our business run smoothly, we're united by the same mission: growing our company and delivering innovative software that empowers energy and water utilities to engage better with their customers.

What you will work on

The Technical Consultant will reinforce Itineris' European **R&D team** in which he/she will be responsible for building **highly interactive, innovative applications for our standard UMAX solution**, using the latest Microsoft technologies. (The role is based in **Ghent** (Sint-Denijs-Westrem) and requires **relevant X++ development experience**

UMAX is the brand name of our software solution for water and energy utilities. It automates their business processes and allows them to better engage with their customers.

UMAX is a cloud-based solution, built on the powerful Microsoft Dynamics 365 platform.

As our Technical Consultant MS D365, you...

are **part of a Scrum team** that focuses **specific modules within UMAX**

participate in the **analysis** of user needs

prepare high-quality **technical designs** based on functional designs

evaluate the **technical feasibility**

develop and improve applications **in compliance with functional and technical designs**

review the X++ code of your fellow developers to ensure the **Itineris coding guidelines** are applied

guarantee the generalization/standardization of the minimal solution to obtain a **re-usable component in MS Dynamics AX**

act as a **technical reference** for functional consultants, project managers and business development

apply your expertise to deliver **high quality development** work, according to the Itineris standards in an efficient and effective way

document your work in a structured and transparent way

What you bring

a higher degree, preferably in **Computer Science**

(medior profile) min. 3 or (senior profile) min. 5 years of **MS Dynamics development** experience

min. 1 year of **MS Dynamics 365 development experience**

(senior profile) **knowledge of X++**

project delivery / **ERP implementation** experience

(senior profile) **experience** with different products from the **Microsoft Azure technology stack**

a **pragmatic** thinker oriented towards finding **solutions**

willing to continually **learn** and **be challenged**

a **quality driven, result oriented team player**

a **keen interest in the Utility sector**

excellent oral & written communication skills in **Dutch and English**

What we offer

A fast-growing & international environment with offices in beautiful Ghent (Belgium), green Atlanta (USA) and lively London (UK).

Working with future-ready water and energy companies and building valuable utility expertise.

Internal mobility, developing your career through various educational programs and growth paths.

An entrepreneurial mindset where you have a direct impact on our growth journey.

An open environment where we understand the importance of taking a break to recharge and achieve the best results. We make it a priority to celebrate milestones, both big and small.

Onboarding, learning and buddy programs to get ready for a smooth start in your new job.

A flexible and inclusive working environment – where people can just be who they are, and where we offer flexible options for hybrid working so you can work in a way that suits you best.

Competitive perks & benefits, because we want to help you reach your full potential, both at work and in your personal life.

A lot of fun moments with an eye for sports, celebration and wellbeing, important for maintaining a healthy work-life balance.
