

TECHNICAL MANAGER SILICA PRODUCTS FOR COSMETICS (FOR AGC CHEMICALS)

[Apply Now](#)

Company: AGC Glass Europe

Location: Belgium

Category: other-general

**What if your
next job was about...**

Your mission :

You will be joining the Chemical branch of the AGC group, one of the world's leading producers of fluorochemicals and fluorochemical materials. You will be based in their new laboratories at the Technovation Centre in Gosselies (Belgium).

Their objective is to support the European Green Deal by expanding hydrogen related developments and to become number one in Europe thanks to the Proton Exchange Membrane (PEM). AGC Chemicals is one of only four manufacturers of this membrane in the world. AGC Chemicals is also active in the field of coatings and cosmetics.

You will be part of the Chemicals group focusing on Silica and coatings. **You will be responsible** for providing technical support to promote our products to customers in European cosmetic projects.

Primary Functions of Role / Key Accountabilities :

Visiting key customers to collect their needs related to our products for cosmetic products use.

Responding to customers' technical inquiries and issues.

Preparing cosmetic formulations, performing evaluations for cosmetic use, and reporting the results.

Participating in exhibitions and other related events to obtain market trend information on materials in demand.

Participating in promotional activities for our products.

Are you the perfect match ?

Your talents :

Chemical engineer or PHD chemistry

Experience in developing base makeup or skincare products is very desirable.

Experience in Laboratory management and safe working practices.

What do we offer

Why you should apply ?

A complete package including a competitive salary, 40 days holiday, luncheon vouchers...

A homeworking policy (2 days a week).

A complete training catalogue in the field of glass and chemical applications, personal and technical development as well as support during the first months of onboarding.

A stimulating work environment with innovative technologies, and a friendly, open-minded and talented team that respects autonomy while always listening to your ideas.

The opportunity to get involved in sustainable development: AGC is committed to the environment and social transition through its staff's involvement in a number of initiatives.

Curious to know more

about your future site ?

You will be based at AGC's Technovation centre in Gosselies where research and development, engineering and intellectual property activities are centralised under one roof with about 300 staff members. With different nationalities, the atmosphere reflects our values of inclusion and diversity: we value the uniqueness of individuals and the different perspectives and talents they bring to AGC. Our teams have a great exposure to different aspects of glass business and new technologies. They are driven by collaboration, motivation, curiosity and respect for autonomy. This makes daily work enjoyable and life easier.
