Technical Presales Architect Infrastructure and Cloud

Microsoft, cloud & infrastructure, lot of experience, developer Belgium share on

You are passionate about **innovation and cloud**. You combine this passion with the **technical and commercial insight** to put yourself in the shoes of the customer, understand their reality and translate this into a technical architecture or solution. As a **communicative and technically skilled architect**, you accompany our Sales colleagues to customer visits and assist them with various presales projects.

You are **ambitious** and eager to take on a varied range of innovative projects. You are **keen on growing and diversifying your architectural skills** by collaborating with colleagues from other teams and solutions. You are **committed to expand your knowledge** by staying up-to-date on the latest technologies in your field and **mentoring** your less-experienced colleagues. You love **building business relationships** collaborating with Sales colleagues and helping our team grow.

Apply for Technical Presales Architect Infrastructure and Cloud!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

Who are we?

The **Core Technology Services** team is a mix of technical **SAP & Microsoft Azure Infrastructure consultants**. Behind every business application that runs smoothly at our clients, there is a substantial amount of work done behind the scenes - and screens. In fact, that's the main mission of this team: making sure that there are **solid foundations** from the very beginning.

We **architect, setup, migrate & maintain** the SAP and/or Microsoft Azure infrastructure to support the business applications of our customers. Our biggest challenge is to keep up with the fast pace of **cloud infrastructure innovation**. That's why it's our trademark at delaware to work on **innovative projects**, leveraging a high level of **automation**.

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège and Wavre**, but we also spend a lot of time working together with our customers **site**.
