Company: Manpower BE

Location: Zaventem

Category: other-general

## **Client Description:**

Manpower Professional is a preferred partner for the recruitment of technical profiles. We offer exciting career opportunities with well-known companies, on permanent contracts.

As a Service technician you will have the opportunity to work for a company that values innovation and excellence in customer service. Our client is a leader in the crop and animal production industry, as well as related service activities. They are seeking a motivated individual to join their team and help maintain their cash and ATM systems.

## **Job Description:**

As a Service technician, you will be responsible for the installation, maintenance, and repair of cash and ATM systems. You will work closely with clients to ensure their systems are functioning properly and provide exceptional customer service. Additionally, you will be responsible for troubleshooting and resolving any issues that arise with the systems.

## **Candidate Profile:**

To be successful in this role, you should have a strong technical background and experience working with cash and ATM systems. You should also possess excellent communication skills and be able to work well independently and as part of a team. In addition, you should be able to work under pressure and be able to prioritize tasks effectively.

## **What Client Offers:**

Our client offers a competitive salary and benefits package, as well as opportunities for

career growth and development. You will also have the opportunity to work with a team of experienced professionals who are dedicated to providing exceptional customer service. Additionally, our client values work-life balance and offers flexible scheduling options. If you are a motivated individual with a passion for technology and a commitment to providing exceptional customer service, we encourage you to apply for this exciting opportunity. Join our client's team and help them maintain their reputation as a leader in the crop and animal production industry.
