jobdetails As a maintenance technician you will end up at a high-tech and highly automated company. With your passion, colleagues work daily to keep production running. As a maintenance technician you will be part of the technical service. You do the preventive maintenance of the machine and you intervene quickly and accurately in the event of malfunctions and quickly recognize technical problems. ...

Technicians also participate in projects related to the installation of new machines and actively make proposals to prevent malfunctions or improve the process. You are therefore prepared to work in 2 shifts (5h-13h / 13h-21h) or at night (21-5h) or in Weekend (5h-17h and 17h-5h ((alternating per week)).
