Test Automation Consultant (BE)

Apply Now

Company: Itineris

Location: Belgium

Category: computer-and-mathematical

Ghent, Sint-Denijs-Westrem

There's a saying at Itineris:?Together goes a long way. And we live by that. Whether your job is translating our customers' needs into the best software, selling, coding, or keeping our business running smoothly, we're united by the same mission: growing our company and delivering innovative software that empowers energy and water utilities to engage better with their customers.

What you will work on

The **Test Automation Consultant** will join the Center or Excellence (CoE). The CoE is a global team of knowledge workers that provides leadership, technical know-how, best practices, research, support and training for areas like D365 Platform, Azure architecture and engineering, Release Management,…

As CoE we guide and support all our Business Units to deliver UMAX, within **Microsofts' D365 and Azure platform**, as a SAAS product in a standardized, controlled, secure, cost-effective and a high-quality way, matching Microsofts' One-V strategy and applicable compliancy requirements.

UMAX is the brand name of our **software solution for water and energy utilities**. It automates their business processes and allows them to better engage with their customers. UMAX is a cloud-based solution, built on the powerful Microsoft Dynamics 365 platform.

As a Test Automation Consultant you will **create, maintain and follow-up automated test scenario's to ensure the quality of the software we deliver**.

The role will be based in **Ghent** (Sint-Denijs-Westrem).

As our Test Automation Consultant, you...

translate manual test scenarios into an **automated test script** in collaboration with the Test Consultant

implement various **automation tools** to build and maintain the automated set depending on the Test subject

design automated test scripts addressing various **interfaces** connected to the test system

integrate automated test cases into **nightly build system** to effectively automate the testing effort

execute **test plans** utilizing automated test scripts to identify software defects

analyze and follow up **automated test runs**, adapt **test scripts**, report **status** and log **defects** accurately

maintain a professional relationship with testing & technical teams

share **knowledge** to team members on test automation and drive adoption.

What you bring

a **higher degree**, preferably in Computer Science or proven experience in ICT

a dynamic **team player** looking to grow in an evolving, international environment

professional experience in scripting automated tests (.NET, X++)

hands-on experience with various kinds of **automation tools/frameworks** (Coded UI, SoapUI - Jenkins...)

custom to **agile software testing and test methodologies**

energized from working in a **collaborative** and iterative development environment with continuous integration and delivery

a focus on continuous **education** to upgrade their skills with changing trends

deep knowledge of a **business application** (ERP is an asset)

quality driven, **solution** focused and **result** oriented

excellent oral and written communications skills in **Dutch and English**

What we offer

A fast-growing and international environment with offices in beautiful Ghent (Belgium), bustling Atlanta (USA) and lively London (UK).

Working with future-ready water and energy companies and building valuable utility expertise.

Internal mobility, developing your career through various educational programs and growth paths.

An entrepreneurial mindset where you have a direct impact on our growth journey.

An open environment where we understand the importance of taking a break to recharge and achieve the best results. We make it a priority to celebrate milestones, both big and small.

Onboarding, learning and buddy programs to get ready for a smooth start in your new job.

A flexible and inclusive working environment – where people can just be who they are, and where we offer flexible options for hybrid working so you can work in a way that suits you best.

Competitive perks & benefits, because we want to help you reach your full potential, both at work and in your personal life.

A lot of fun moments with an eye for sports, celebration and wellbeing, important for maintaining a healthy work-life balance.
