Job Description

Description

You will assume responsibility of testing within service delivery, of assigned projects/programmes in order to ensure a coherent, stable, performant and (cost) efficient IT landscape that meets customer needs in line with the enterprise architecture.

Tasks:

- In cooperation with our external partner, you will draw up the test strategy and take care of internal reporting.

- You are responsible for setting up and supervising the User Acceptance Tests for our client.

- You keep your knowledge up to date in order to submit targeted improvement proposals and validate the partner's proposals so that our quality continues to evolve.

- You are cost-sensitive and always watch over the cost price of your proposals.

- You validate our partner's deliverables based on samples.

- You evaluate our partner's standards and procedures and help draw them up for

- performing UAT tests.

Requirements

Your Profile:

- You have mastered relevant knowledge and insights, preferably through an education at Bachelor's level (in Computer Science)

- You have extensive relevant work experience as a test coordinator and also several years as a tester. You possess an ISEB/ISTQB certification.

- You can convince people and devise and evaluate different solutions.

- You are a coach, ideally used to working with teams located offshore located.

- You communicate fluently and in a structured way and have strong adaptability.

- You Have experience reporting on project quality.

- You are eager to learn and regularly take the initiative for self-development.

- You are analytical and able to monitor several projects simultaneously

- Especially in the field of test automation, we foresee a large growth potential. Ideally, you can help us with this.

- You have experience with SAP / SAP4hana

- Knowledge of Saas solutions for SAP is a plus

General competencies:

- Team player with excellent oral and written NL/FR and EN language skills

- Able to work independently

- Strong problem-solving technical knowledge

Languages:

- Bilingual (Dutch and French)

- English
