Company: Cargill

Location: Mechelen

Category: computer-and-mathematical

Job Purpose

and Impact

The Trade Compliance Operations Senior Analyst will apply comprehensive trade compliance and customs operations knowledge to perform a range of moderate to complex activities. In this role, you will collaborate with internal and external business partners to drive continuous improvement.

Key Accountabilities

Coordinate global trade compliance and customs operations within a country (Belgium) to meet business goals.

Work with Customs brokers and other governmental agencies (sanitary, veterinary, phytosanitary etc.)

Apply a substantial understanding of global trade compliance and customs and excise operations practices and procedures to execute transactions.

Ensure documents and data meet legal, customs and fiscal requirements and records are maintained in accordance to guidelines.

Independently validate and coordinate customs import and export transactional data and document requirements to complete customs import/export declarations and clearance.

Execute and complete medium-impact internal global trade and compliance project from customs perspective

Develop and maintain relationships with standard partners to implement cross-border solutions to support organizational goals.

Record, monitor and analyze compliance operations key performance indicators for the location.

Independently solve moderately complex issues with minimal supervision, while escalating more complex issues to appropriate staff.

Other duties as assigned

Qualifications

Minimum Qualifications

Bachelor's degree in a related field or equivalent experience

Practical knowledge of customs regulations and foreign exchange controls

Minimum of four years of related work experience

Good knowledge of MS Office
